

## How ACI Benefits ADC

- ☀️ **ACI is a vital part of the Department of Corrections.**
- ☀️ **ACI assumes security responsibility for nearly 2,000 inmates a day, freeing ADC staff to perform other duties.**  
**FY2018 ACI Inmate Work Hours: 4,330,000<sup>1</sup>**
- ☀️ **ACI instills a sense of purpose for inmates who otherwise would use their free time in prison in very unproductive and negative ways, then return to their communities upon release without any new productive skills.**
- ☀️ **ACI creates good work habits and positive routines for inmates; a tired inmate creates fewer issues on the yard.**
- ☀️ **ACI generates inmate compensation that offset ADC room and board costs, allowing ADC resources to be used on staffing and infrastructure.**  
**FY2018 ACI Inmate Room & Board: \$3,095,647<sup>1</sup>**
- ☀️ **ACI helps ADC keep costs down on items purchased from owned and operated shops, like: clothes, bedding, mattresses, bunks, exercise equipment, tables and chairs, office furnishings, signs, plaques, awards, printing...**
- ☀️ **Working with ACI helps reduce recidivism by 31.6%<sup>2</sup>**
- ☀️ **Every year, part of ACI's net income is reinvested to create new work opportunities for inmates and maintain ongoing operations.**
