

## Delivery and Installation

Led by experienced employees, each ACI Delivery and Installation Services team includes two to six inmates. These responsive teams operate out of vehicles equipped with everything they need to quickly and efficiently complete the job.

Over the years ACI Installation Services has transformed everything from a simple administrator's office through entire office suites for customers across the state. They have installed:

- \* High-end custom cabinets
- \* Bus shelters
- \* Courtrooms for state agencies and municipalities
- \* Many of the custom furnishings in both houses of the Arizona State legislature and the Governor's offices
- \* Conference and board rooms
- \* Libraries and locker rooms
- \* Dorms and lounges
- \* Signs, kiosks, shade structures, bar-b-ques and picnic tables for state and local parks and recreation agencies

ACI Installation Services make every effort to meet the needs of each customer. They can create a pickup and delivery schedule to ensure that the items they are refurbishing will be back in place by a specific date or install a new set of modular offices before a private office building officially opens. In 2016, crews were dispatched to every corner of the state to deliver hundreds of new picnic tables for Arizona State Parks and even hiked miles to install the benches and signs for the Granite Mountain Hotshots Memorial State Park in Yarnell just weeks before it was officially dedicated by the Governor.

## Delivery and Installation

ACI Transportation Services specialize in moving raw materials from vendors to the ACI warehouse and to the individual Owned & Operated shops. They also transport finished ACI products from the shops to the warehouse and onto customers in Arizona.

By including select inmates on its delivery and installation crews, ACI expands the jobs-skills training beyond the crafts they are learning within its Owned & Operated shops. As they assist ACI's experienced staff in transporting and installing various ACI produced products they are beginning the process of acclimating to life outside of prison.

These inmates are cleared by DOC security to be supervised by our experienced staff away from the Prison facility. (Level 1 inmates state-wide)(level 2 inmates within 60 mile radius of the facility).

ACI's Delivery and Installation Services play an important role in meeting the transportation needs of the 29 shops across the state and delivering finished products to its customers.
