

As a custom manufacturer, ACI listens. Our account reps and product specialists take the time to learn:

- ◇ What you want
- ◇ Where it will be placed
- ◇ How it will be used
- ◇ When you need it
- ◇ What your budget for the project is

Then we come up with some recommendations to meet your requirements:

- ◇ One of our standard products
- ◇ A standard product with alterations to match a finish to a certain décor or your unique dimensional requirements
- ◇ An entirely new design

3-D Renderings

Using state-of-the-art cad programs, our experienced designers and structural engineers will create drawings, material requirements and construction specifications for your approval.

The training programs in our metal and wood shops include hands-on, apprenticeship-type instruction working side by side with experienced craftsman. They teach the art and science of metal working as well as the diverse woodworking skills in the manufacturing of high-end, durable furnishings.

Graphic Design

Our in-house graphic design studios can help give your printed pieces, signs, plaques and sublimated items that finished, polished look that gets noticed!

With ongoing training from industry experts, inmates are learning a valuable skill to improve their lives and make them more employable upon their release. The instructors bring real-world graphics training and state-of-the art knowledge to the students — and they apply what they are learning to your graphic design projects.
