Say it with style

Arizona Correctional Industries
Quality Products ↔ Productive Lives

- Outdoor Signs
- Vinyl Signs, Vehicle Graphics
- Nameplates
- Plaques and Awards
- Promotional Items
- Indoor Plastic ADA Signs
- Stamps
The creation of your sign involves the precise layering of each color.

This recent job required four separate applications (red, two shades of green and black) of adhesive vinyls. Each color was carefully applied to the white vinyl atop the aluminum panel to create the finished sign.

The completed 3’x 5’ signs were placed throughout the construction sites for this local builder to remind the various staff members, contractors, sub-contractors and vendors about their jobsite rules.

Say it with style

If you have something to say, Arizona Correctional Industries has the perfect way to help you say it.

From directional road signs or work-site notices to lapel name tags, the crafts-people in our shops can create your message with style:

⇒ Engraved awards and recognition plaques in wood, acrylic, metal or plastic are an ideal way to say thank you

⇒ Nameplates engraved on wood-grain or marble laminates can identify offices, work spaces or conference rooms with a touch of elegance.

⇒ It’s important that visitors know the way out or where to find the restrooms, and bright two-color vinyl or engraved signs can provide the necessary guidance.

⇒ Customized stamps can help you instantly convert generic forms and literature into important branding opportunities
Outdoor Signs
With Pictures or Words

Directions, cautions, instructions or a simple “Come on in, we’re open!” carry more weight when they’re presented professionally on one of our durable outdoor signs.

Constructed of aluminum in a variety of thicknesses, finishes and colors your message will endure year after year.

Tell Us What You Want to Say and Where You Want to Say It

We’ll help you figure out the specifications the sign-shop professionals will need to create your signs. For instance, if you want to warn drivers that there may be students crossing the street by your school, your sign could say that or you could use the universally-recognized yellow sign above.

Will the sign be on a permanent post, affixed to a wall or fastened to a portable stand (we also make portable sign stands)?

Knowing the answers to these types of questions will help us determine:

⇒ **Dimensions:** length and width, portrait or landscape. A sign on a bus stop shelter can be much smaller than one at the top of a 20-story building.

⇒ **Thickness:** 40, 63 or 80 thousandths of an inch (.040”, .063”, .080”) available.

⇒ **Mountings:** necessary hole placement for attaching to your post, wall or stand.

⇒ **Coating:** Ultra Violet/ Anti-Graffiti protective coating available.

⇒ **Single- or Double-Sided**

⇒ **Background and Text:**
  ⇒ Color(s)
  ⇒ Non-reflective
  ⇒ Reflective
  ⇒ High-Intensity
Standard Traffic or Customized Company Signs

Most of the remaining specifications for traffic signs are standardized, so we’ll simply comply with those requirements, but for signs you’re creating for other uses, our experienced customer service representatives will work with you to determine:

- **Background**: color, reflective or non-reflective.
- **Text**: fonts, sizes, styles, colors.
- **Corners**: rounded or square.
- **Border or no border**.
- **Logos and other graphics**: we’ll help you provide them in acceptable formats for use with our state-of-the-art equipment (see Digital Graphics Requirements on page 5).
- **Quantity**: how many signs do you need?

**Delivery (anywhere in Arizona), basic typesetting and layout is included in our pricing.**

ACI stocks primary colors in silkscreen inks and adhesive vinyls. Custom or PMS (Pantone Matching System) colors will require additional charges. Please include an actual sample of the color for reference. Not all colors can be matched exactly, but we will make every effort to match your color(s) as closely as possible. Color blends and gradient fills are not reproducible with our production methods.

**Pricing**

Generally prices are determined by the thickness, finish (reflective or non-reflective) and size (total square feet of your sign). Here is some sample pricing for **Aluminum Signs** with a color background and one text color (check website for current pricings) on the most common sign sizes. There is 15% premium for each additional background or text color.

| Stop Sign Single Sided; 24” | $48.00 | $45.60 |
| Stop Sign with Handle Double-Sided; 18” | $44.00 | $41.80 |

Larger sizes up to 4 feet by 10 feet are available. Of the thousands of signs ACI manufactures every year, these sizes are the most common. As agencies and companies strive for a uniform, consistent look, these specifications have proven very helpful.
Digital Graphics Requirements

After years of working with most state agencies, we have an extensive library of graphic images in addition to the universal traffic sign images. With the right kinds of digital files we can also recreate your unique logos and other graphics on silk-screened or adhesive vinyl signs. But please remember that our highly-specialized equipment requires specific digital files with vectorized artwork.

Some programs that can generate these types of graphic files include:

- Flexisign (version 10 or lower)
- Case mate
- Corel Draw (X4 or lower) ..................................cdr
- Adobe Illustrator (CS2 or lower) ............................ai

Many programs can output acceptable files such as:

- Encapsulated Postscript ......................................eps
- Unsecured PDF (in PC format, high-res; 600+ dpi) ....pdf
- BMP (high-resolution; 600+ dpi) ............................bmp
- JPEG (high-resolution; 600+ dpi) ............................jpg

These file types are useable (in most cases), but extra charges may apply if they need to be converted into vector art (such costs priced individually).

Should a specific type font be required, the name and supplier of the font should be included with your order. If we do not have this font in our library, we will ask you for a copy of it from your computer font library (or we will need to charge you for any costs we incur to obtain it).

Please specify any Pantone Matching System (PMS) colors that you want matched within your artwork. We will do our best to match any colors you require, but it may not be possible to get exact color matches.

**Other Artwork Submission Options**

We can also accept clean, camera-ready black and white artwork and bitmap artwork, but additional charges will apply to scan, vectorize and clean up your artwork.

Faxes, copies, business cards, photographs and web images can only be used for illustration. They are not usable in our processes.

Designs that require more than one rework and resubmission or extraordinarily complex designs, will require additional design and setup fees. These fees are quoted on a case-by-case basis.

Vinyl Colors (continued from page 5)
Vinyl Letters, Numbers, Legends, Signs

Pressure-sensitive, computer-cut vinyl letters and numbers are the perfect medium for messages on windows, directories, signs, vehicles or any other smooth, non-permeable surface. We send your sign to you properly spaced and aligned for application, along with application instructions.

Standard letter heights for computer-cut signs range from 1” to 10” without a seam. Letter heights greater than 10” will be quoted upon request. If font is not specified, we produce your legend in Helvetica. Legends can be cut in a wide variety of premium vinyls and colors as well as in promotional grade vinyls.

Non-reflective legends can be produced either forward cut for surface application or reverse cut for application to the inside of windows or glass doors.

Vinyl Legend Order Worksheet

Note: prices as of March 2014, please check website for current pricing.

Vehicle Graphics

High-quality, durable and economical vehicle and fleet graphics can take your important messages on the road. Whether identifying official vehicles or advertising commercial products and services—no matter how large or small the fleet—turn to ACI. We use high quality vinyl fleet markings, precise computer-cut graphics in multiple sizes and colors. Or we can create custom colors to match your design. Application over rivets or corrugations is no problem with positionable vinyl.

If you want your vehicle message visible at night, we can use reflective vinyl. Our design team can take graphics from raw concept to finished artwork.

Order Worksheet

- # ___ of vehicles
- Colors (see pages 5 & 6): ________________________________
- Description of graphics required: ________________________________
  - __________________________________________________________

Engraving

Nameplates

Engraved nameplates are made of laminated plastic or metal with marble finish. They are available in a wide range of colors and sizes. The price of each nameplate includes up to two lines of text (additional text lines can be purchased).

Unless otherwise specified, these specifications will be used:

⇒ laminated plastic
⇒ names and departments will be in all upper case
⇒ titles will be in initial upper case
⇒ All text will be in Block Normal font.

Nameplate Order Worksheet

⇒ #_____ of identically sized nameplates

Material:

⇒ ☐ Laminated plastic

Dimensions: ☐ 1” x 10” ☐ 1.5” x 10” ☐ 2” x 8” ☐ 2” x 10”

⇒ ☐ Metal

Finish (see page 11, Metal Options):

Dimensions: ☐ 2” x 8” ☐ 2” x 10”

⇒ Text for each nameplate:

1. ________________________________________________________________
2. ________________________________________________________________
3. ________________________________________________________________
4. ________________________________________________________________
5. ________________________________________________________________

Options (additional costs):

⇒ ☐ Additional line of text: ____________________________________________

⇒ Backing: ☐ Adhesive ☐ Magnet ☐ Velcro

⇒ Holder style: ☐ Desk ☐ Wall ☐ Bracket

⇒ Holder Size: ☐ 2” x 8” ☐ 2” x 10” ☐ 2” x 12”

⇒ Dual Holder: ☐ 3.5” x 9” ☐ 3” x 10” ☐ 3.5” x 10” ☐ 4” x 10” ☐ 4” x 12”

⇒ Groove: ☐ Single ☐ Double

⇒ Holder color: ☐ Silver ☐ Rose Gold ☐ Bright Gold

Plaques and Awards

Say "thank you," "great job" or "congratulations" in style with customized plaques and awards from ACI's engraving and sublimation shops.

Your message is engraved on a colorful metal plate highlighted with brass or aluminum framing. It is then mounted on a solid walnut, cherry wood or walnut veneer plaque. Engraved graphics are available at additional cost.

**Metal Options**

For nameplates or plaques. Complete list of options available on website.

Sublimated Promotional Items

Sublimation works through the combination of special inks, heat, and pressure. The special ink has the ability to bond to many different types of items as the dye penetrates the surface and gives the finished piece a smooth finish; unlike the feel of a decal.

Sublimated images are extremely durable and permanent with a full-color vibrancy – truly photorealistic. We stock a limited supply of specially-treated ceramic mugs, mouse pads, stainless travel mugs, white T-shirts, and magnets (in selected sizes). Many other items, such as key chains, iPhone cases, bags are also available for sublimating your message. Ask your sales or customer service representative for details.

Digital License Plates
Want your logo on a license plate? A picture of your family or your dog? With our full color process, we can make a license plate as unique as you are. Contact your ACI Customer Service Rep to create your personalized sublimated license plate.

Order Worksheet
6" x 12" White SUBLICENSEPLATE $13.60

⇒ Number of plates: __________
⇒ Style:  □ Text on standard plate __________________________________________
          □ Full-color graphic
          Graphic: __________________________________________

Novelty Embossed License Plates
Traditional embossed plates in aluminum or copper can include a top legend (Arizona) or a bottom tagline (Grand Canyon State) or both. Copper embossed plates have separate letter colors available to choose from. (see page 19 for prices)

Order Worksheet
⇒ Lines
          □ One, enter text: ______________ [7 character maximum, including spaces]
          □ Two, enter text: ______________ ______________ [8 character maximum, per line]
⇒ Style:  □ Standard (6" x 12") □ Motorcycle ⇒ Letter Color:  □ Black
          □ Reflex Blue
          □ Bright Red
          □ Stop Sign Red
          □ Warm Red
⇒ Material:  □ Aluminum □ Copper
⇒ Legend(s) □ Top "Arizona"
          □ Bottom "Grand Canyon State"
          □ Both top and bottom
ADA and Engraved Plastic Signs

Internal spaces are fraught with dangers, especially for staff, students, or visitors with disabilities. ADA (Americans with Disabilities Act) signs include Braille to allow the vision impaired to "read" door labels and other important directional signs throughout your facilities.

ADA recommends a 70% color contrast factor in all engraved signs. For example, a red sign with white lettering is considered high contrast, whereas a white sign with beige lettering would not meet this standard. As per the ADA requirements, all ACI plastic signs have minimum 3/8” tall, raised lettering.

The signs are made of laminated plastic using Block Normal font for all text, unless otherwise specified. Basic layout of your sign is included in our prices. More complex graphics or logos may require an additional fee.

Order Worksheet
