# Novelty Plate Catalog

---

## Introduction:

ACI is now offering digitally printed novelty license plates. In this catalog, you will find examples of plates, clocks, birdhouses, and other miscellaneous items that are now available. Custom designs are also available for purchase on most of these items.

Our Aluminum plates are 6" X 12" with an embossed rim. the graphics are printed on a white reflective sheeting.

Our clock mechanisms require a single AA battery - Not Included.

The "Graphic" is a one time fee for custom designs. If you choose to order 10 custom plates with the same custom graphics, you will be charged a one time fee for the original design. If you choose to have several custom designs, a design fee will be charged per design (Part # WMLP1048). Once you have had a custom design, it will be available to you at any time with no additional fee (for the exact same design).

If you request any of our already made custom designs and want lettering added, you will use  
Part # WMLP1047

(This is for the redesign of an already existing plate)

Embossed Plates are also availble in many colors and styles. Most of the choices available to our digital plates are also available for the embossed designs.

We have also added a Coyote, Quail, Star, and Horse Head, to our speacial characters list which already include Sagauaro, Cactus, and Heart.

If you do not see a format that suits you, please feel free to ask store personel for help. Together with our design team we can make your ideas come to life!

# Back Ground Plate Colors

Below are our available license plate pre-painted colors which are available on aluminum plates only.

( Available in plain metal )

# Ink Letter Colors

Below are our available standard ink colors. Sorry, no "custom" ink colors are available

\*The below plates are aluminum, and embossed with the characters you see. Any alteration could result in an additional design fee.

Description: This is an Embossed plate - The **USA** is outlined and embossed so that it stands out on the plate. American flag as the background, with red, white and blue embossed letters.

Part No. **NP015** - USA Embossed on Flag

Embossing the letters on a novelty plate is just another way you can choose to stand out from the rest.

We have several styles to choose from: Outlined letters with digital colors - like what you see on the plate above, Outlined letters with no fill, and inked letters. Inked letters are embossed letters that are inked by a roller machine. The colors are limited, but carry that nostalgic feeling of how license plates used to be made. Be mindful of the background when you choose to add embossed letters to your plate. We have found that in some cases solid letters work best with simple backgrounds. Whereas complex backgrounds look better with Outlined letters with a contrasting color.

Description: This is our copper embossed house number plate with our standard embossed numbers. The available ink colors are the same as the embossed plates.

Part No. **NP001CHN** Standard copper embossed house numbers

Part No. **NP001ADHN** Standard aluminum embossed house numbers

We can also emboss house numbers!
